

# Supercharge 4GL Applications with eagleIQ<sup>SM</sup>

As you plan your future technical strategies, consider what some of the largest Progress shops are doing with EagleIQ<sup>SM</sup> to profit from their investment in Progress 4GL applications.

## Enterprise Scalability

- Achieve high availability, clustering, load balancing, and multi-threaded parallel processing for Progress applications
- Enable a high performance Service Oriented Architecture
- Build ultra-fast, highly functional web and handheld applications using industry-leading frameworks

v9/v10

All EagleIQ<sup>SM</sup> capabilities are available immediately for your v9/v10.x applications.

EagleIQ<sup>SM</sup> has been certified *Java Powered for the Enterprise*<sup>™</sup> by passing strict criteria for J2EE cross-platform functionality.

## Cross-Platform Integration

- Invoke 4GL from .NET, Java, VB6 and 4GL at high speeds
- Invoke Java from 4GL, .NET and VB6 at high speeds
- Access local and remote systems concurrently in milliseconds, including multiple Progress-based applications, Oracle, J2EE, Microsoft and others
- Integrate Progress applications with portals, JSP, JMS, ASP.NET, Oracle Stored Procedures and SOA service layers

## Application Reliability

- Dramatically increase speed, stability and scalability when compared to OpenEdge<sup>®</sup> Application Server & DataServer, WebSpeed<sup>®</sup> and WAN DB connections
- Allow Progress 4GL logic to participate in global transactions within a J2EE server
- Optionally run as a J2EE JCA Resource Adapter in Sonic ESB<sup>®</sup>, WebSphere<sup>®</sup>, WebLogic<sup>®</sup> and others without needing proxy classes

Call **1.800.388.1850** to demo EagleIQ<sup>SM</sup> from your own web browser today!

*EagleIQ<sup>SM</sup> is a high availability, clustered server with cross-platform, cross-language client interfaces that enable you to build applications that integrate 4GL business logic with other industry-leading technologies.*

EagleIQ<sup>SM</sup> is a technology and services offering of Solvepoint Corporation. We would be glad to answer any questions you have. Please call us at 1-800-388-1850 or point your browser to [www.solvepoint.com](http://www.solvepoint.com) and visit us online.
